How to Play:

1. Decompress SupremeScoreFour.tar.gz . Run run.sh, if that does not work, cd to the SupremeScoreFour directory and run Referee.

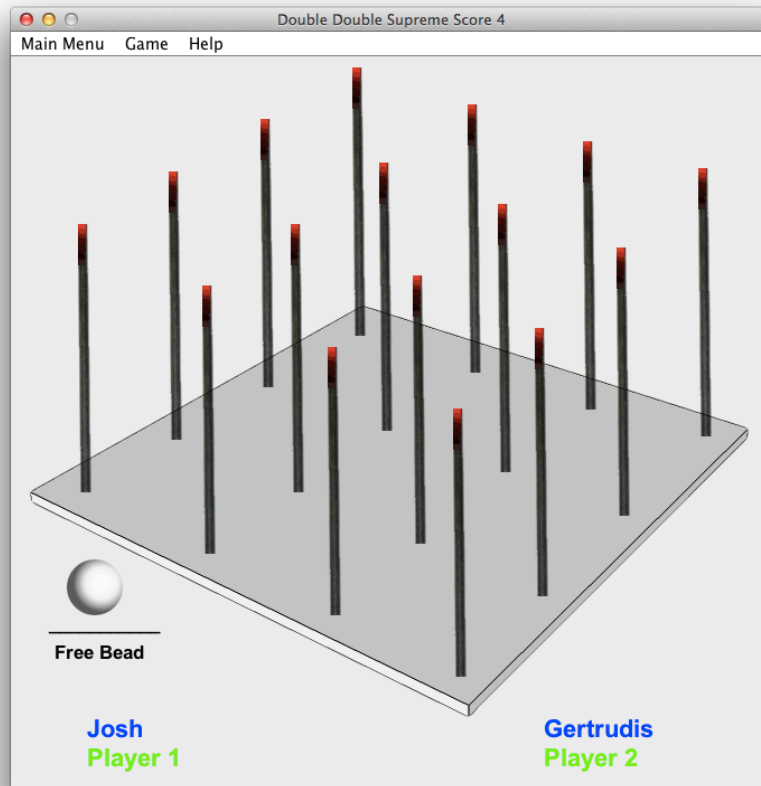

2. Open the 'Main Menu', located at the top of the window, by clicking on it.

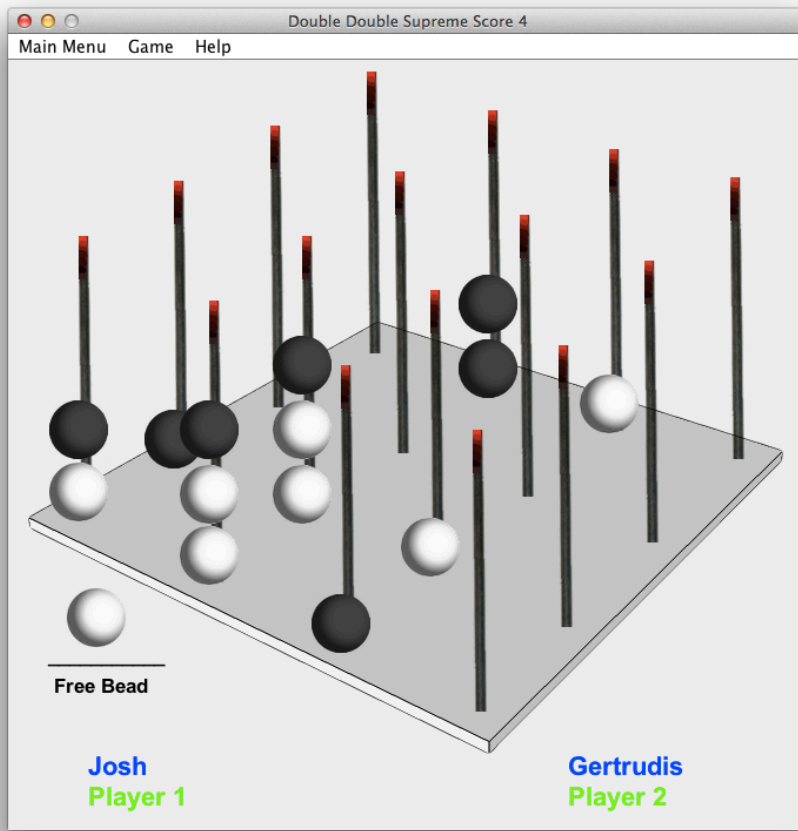

3. Click on 'Human vs Gertrudis' or 'Gertrudis vs Computer'

4. Enter the name of Player 1 in the pop-up window for a game of 'Human vs Gertrudis'.

5. Click and hold on the white 'free' bead, near the bottom of the window.

6. Drag the bead to the top of the peg you want to play on.

7. Release the mouse.

8. Wait for the computer to make their move.

9. Repeat Steps 5 through 8 while trying to make a line of white beads (the line can be horizontal in either direction.

10. The first player to make a line wins. If you win, your efforts will earn you a spot in the high-score board!
11. You can view the highscores by clicking on 'Game' and then 'High scores'.
